Three boys tear through their childhood, in the midst of their young parents' volatile love that makes and unmakes the family many times over. While Manny and Joel grow into versions of their loving but unpredictable father, Ma seeks to shelter her youngest, Jonah, in the cocoon of home. More sensitive and conscious than his older siblings, Jonah increasingly embraces an imagined world all his own.

The film is a visceral coming-of-age story propelled by layered performances from its astounding cast – including three talented, young first-time actors – and stunning animated sequences which bring Jonah's torn inner world to life. Drawing on themes on toxic masculinity, sexual awakening and a unique childlike point of view of being an outsider We The Animals creates an immersive portrait of working-class family life and brotherhood.
